The translation to english is really bad.. Lags extremely badly on my computer, I'm not sure what the deal is, but lowering the graphics all the way down does not fix it.

I have a clean install of the latest amd drivers on my RX 580, I'm using a Ryzen 3 1300x with 8gb of DDR4 at 3200mhz, the game is installed on an Adata 250gb ssd, and I made sure to close all unnecessary background apps. At the moment I cannot recommend it to anybody that doesn't have a top spec pc, because the lag makes it unplayable, even when I use the oculus tray tools to force it to render at 0.7x the native resolution. Great Game, And I Am Stuned By The Graphics. This Game Blew Me By Suprise With Its Ability For Slow Motion. And Even Though Some Puzzels Of The Game Are Hard And Tricky, It Is Still A Well Deserved Game To Play.. This game is cheap, yes, but not terribly interesting. The controls for the parkour elements are finnickly and difficult, and the platforming challenges just aren't that grand. It also uses some beat-em-up sections to change things up a little; those are more of a hindrance than an actual challenge. You can pretty much button mash through all of those. They're just tedious and exceedingly repetitive with the simplistic controls.. I rarely play twin stick shooters, but the roguelite aspect of this game and the awesome modular weapon system is what drew me to it. The ability to create something completely crazy and then kill hordes of aliens is something which reminds me of some old space-shooters. This weapon system also allows me (together with choosing the ship and the pilot) to play with radically different strategies and approaches so it's never dull. One time I'm a fast and sleek ship which pushes enemies away and deals AoE damage, other times I'm a tank which shoots several concentrated beams which deal high damage.

But, the local coop is where the real fun begins for me, as the joy of victory and blaming the loss on someone else is always a cool thing to do among friends :P

The updates are regular which is a great thing, and not long from its release the game is already nicely balanced.. If you love legos and have played Gmod, well this is basically a miracle combination of the two. You can do way too much silly stuff in this, as well as make some REALLY impressive machines. Definitely recommended :) also love the zombie mode.. I respect the effort, but its just not quite there.. Favorite game of the moment. Game is bad\u2665\u2665\u2665\u2665\u2665 Sort of a mix of ONI and FTL.. I would like to play the game because it sounds interesting, but I can not play with W, A, S, D (need arrow keys to play) and the game does it every time I move Screenshots !!! so that you have tons of screenshots. The developer does not answer or does nothing, although the game is in early access.

Ich m\u00f6chte gerne das Spiel spielen, weil es interessant klingt, aber ich kann nicht mit W, A, S,D spielen (brauche die pfeiltasten zum spielen) und das Spiel macht jedes Mal, wenn ich mich bewege Screenshots!!! so das man tonnen von screenshots hat. Der Entwickler antworte nicht oder tut nichts, obwohl das Spiel im early access ist. King Midas needs your help! Everything he touches turns to gold - food, drink, and even his own daughter! Travel back in time and help Midas break his golden curse in this dazzling puzzler. Connect magical talismans to build up wealth and battle legendary monsters from ancient Greece. Power-ups and bonus levels give you the edge you need to twist your way through 80 levels of fun! It is addicting fun and makes you want to come back for more. This is a casual game that really keeps you on your feet. Undo the past and solve the puzzles that come your way to save your daughter and undo the curse that has fallen upon her. Make sure to get this game at a discounted price because there are alot of games out there that can give you casual fun like this but this one has a story to go along with it which is fun as well.

This game only costs 1\$??? This is freaking awesome! Best inversion ever!!!. This is a good 2D fighting game with great story. I highly recommend this game if you like good story with some good action. I enjoy playing this game. Keep up the good work. (If the dialog have voices that would be nice.) This is a work in progress game so it still has room for improvement. Fun game and good price.. If you like playing mahjong and looking at cute anime girls, this is the game for you.. Dungeon/horror/puzzle, find a way out - game, with nice graphics and atmosphere.
